Exciting Broforce

If you like fighting, then the computer game Broforce is definitely for you. It is an exciting game you should play.

The animated people you play with are characters of famous films such as James Bond and Blade. In Broforce you ~~have to~~ face problems, ^{for example learning} ~~such as learning~~ how to fight and defeating monsters. You have to distract your enemies and ~~try~~ try to kill them. The locations ^{in the game} ~~where you play~~ are different ~~3~~ all the time. The ~~bar~~ but ~~3~~ usually those are ~~some~~ unreal cities. The main goal of the game is to ~~to~~ make it to the end, of course, by ^{defeating} ~~killing~~ the most powerful foe: ~~my~~ Satan. It is really hard.

I ~~was~~ would totally recommend ^{Broforce} to all teens and adults, ~~espece~~ especially ones like ^{me} ~~who~~ ~~adore~~ are hot-headed and adore brawls. I'm sure they won't be disappointed.

Hi! I want to tell a review of a computer game I have recently played. Its name is "Mobile Legends". It's a MOBA game, where two teams are fighting. There are five players in 1st and 2nd team. Before game'll start, the players pick some fighters for a battle. When game is starting, the players are going to their lines and fighting with other players. There are lots of tactics and mechanics for win in this interesting game. The players should help to their teammates so then they'll win. I have been played in this game about five years. I like this game and I would recommend it to my friends and people who like strategic svs games and like take of emotions. One from my friends plays in Mobile legends with me. In fact, my dad plays in this game with me too. It's really funny and so cool!

The great writer, whose name is Charles Dickens, says: "Procrastination is the thief of time, collar him. I think, author wanted to say us, that procrastination makes people lazy, so people don't want to get some new skills and sometimes lost their chances. I am agree with it. Often people think, that they will do all this plans tomorrow, and so every day. But all not so easy. Some of people are thinking, that procrastination is a problem just for lazy people, they think, that people might just have a job on a hobby. But sometimes procrastination says us, that we are tired and our body need a relax. Scientists even say, that procrastination may be a sign for a problem with our health. In classical literature, there is a one man, Oblomov, who also suffering from procrastination. He all days he lying on sofa all day during almost all his life. It is really a productive time-wasting.

I think, procrastination is not so bad, sometimes it just helps that we need a relax or rest. But it is enormous, when you spend your life nothing doing and just lying on sofa all days. After rest you have to continue your work with new and emotions.

I definitely agree with the quote. Charles Dickens tries to tell us that we're wasting our time postponing the tasks until their deadlines. In my opinion procrastination is a malicious habit, and there are a few reasons why it is. Firstly, by hesitating on doing your task, you're making it worse for yourself, because you won't have enough time to finish it. Secondly, you're being idle when you are not doing anything. And finally, people tend to get distracted a lot, even when they are trying to focus on something.

Here's an example from my life. I get a lot of homework, and sometimes I leave it for later. But my avoidance of homework only makes it worse, because in the end I only have about two hours to do my homework, which is obviously not enough. And considering that the tasks are tough to do, I can even fall in a state of desperation and unfortunately, I don't have anything finished at all.

In conclusion, I can say that procrastination is an absolutely time-wasting activity. To tell the truth, this is very common for this to happen in this generation. We should always be productive and stop avoiding whatever we need to do.

Writing

Procrastination is a common behavior of 21st century. The famous writer once said: "Procrastination is the thief of time, collar him". Personally I fully agree with him. Procrastination often refers to acts of delaying and postponing tasks. So this is often leads people to feeling quite anxious, this is because when we procrastinate we often find ourselves caught in a cycle of avoidance, choosing distractions over important responsibilities.

For example from my life I will write about time when I was in a 10th grade. All of my evenings were time-wasting. I went home at 5 o'clock, sleep for 2 hours and all of remaining time I was scrolling my social media and, of course, TikTok. I even didn't do my homework, so after few months of this kind of life my marks in school were worse than ever. Fortunately, I saw the problem and now I'm trying to do my best and procrastinate not so much.

The main cause of procrastination is human idle, so to combat it people need to know how to hesitate it. They need to learn about planning their time ~~effectively~~, then ~~for~~ setting clear goals.
